SECTION A

Answer all items in this section .All responses to this section must be written in the spaces provided.

item 1

Mr. Moses is a prominent herbalist living in Iganga town. He always obtains his medicine from the medicinal plants by uprooting their roots, debarking their stems and detaching leaves from them which are boiled and decanted very well such that he obtains a clear medicine ready to treat diseases. However medicinal trees have become scarce in the area which has put his job at a high risk and he is confused on what he can do such that his job is secured.

task

- a) Explain how Moses's actions affected the normal functioning of the medicinal trees

This image shows a blank sheet of white paper with horizontal ruling lines. The lines are evenly spaced and extend across the width of the page. There are no margins, text, or other markings on the paper.

- b) How can you advise Mr. Moses to maintain the availability of medicinal in the area such that he can secure his job.

This image shows a single sheet of white paper with horizontal blue or grey ruling lines. The lines are evenly spaced and run across the width of the page. There are approximately 20 lines visible. The paper has a slight shadow on the right side, suggesting it's resting on a surface.

item 2

Ssewungu a S.3 student joined a group of boys who smoke cigarette and take a lot of alcohol in one of the bars in their trading centres. On day as they were enjoying their alcohol and cigarette, they were ambushed by police man and took off from the bar but as Ssewungu was running away from policeman, he accidentally stepped on a sharp nail which made him to feel a lot of pain and unfortunately the nail refused to come out from his leg when he was taken to the hospital, the nail was removed and left a big wound that took long to heal due to his condition of having a malfunctioning pancreas.

task

- a) Explain how Ssewungu's body reacted to the situation to enable him to run away.

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and extend across the width of the page. There are no margins, text, or other markings on the paper.

All responses must be written in the spaces provided .

item 4

An investor cleared a large part of a forest near a water body to plant only maize long scale. He usually applied artificial fertilizers to boost on the yields. He also dug up and down the slopes on the hill in his garden. After a period of two years the crop yields reduced, strong winds are now common in the community muddy slides are also common and snakes are very common in people's homes which has put them on risk

task

- a) Explain how the investor's actions caused the above challenges
- b) Show the investor how these challenges can be controlled in the community

item 5

Okello cleared a thick vegetation in the swamp to plant rice only on a large scale. He used poison to kill pests that may destroy his rice, he also applied artificial fertilizers to increase on the crop yields with in two years, the community experienced floods, attacks from monkeys, reduced fish catch, low crop yields and rapid growth of weeds in the garden.

task

- a) Explain how the above challenges resulted from Okello's actions
- b) Show Okello why is it important to conserve swamps in the community.

PART II

respond to one item from this part

all responses should be written in the answer booklet provided.

item 6
